

**September 2011 – May 2012  
Yearbook – Advanced  
Photography**

*Kingdom Builders Homeschool Cooperative*  
*www.kingdombuilderscoop.com*

## **Yearbook**

This is a full year course that can be counted and a high school elective credit. Students **MUST** have a digital camera in order to take this course. A Digital SLR camera is recommended. If you do not have the proper camera, check with the teacher before registering for this class. Students will need to have access to a computer and have some type of editing software.

This class will have homework. Each student will be given a section of the yearbook in which they will be responsible for overseeing. Students must be responsible and complete work on time. September - March will primarily consist of taking photographs for the yearbook and putting it together. The rest of the year we will focus on Advanced Photography techniques and special projects.

Please be familiar with your camera. Read all instructional manuals before the first day of class. Any student that comes two weeks in a row without a camera or completed assignments will be asked to drop the class.
